Date of Birth: 27/03/2004

Career Goal/Objective

I want to work in the field of computer science.

Personal Qualities/Attributes

Organised, with good problem solving skills, logical, committed and can work well with others.

Availability

Saturday from 12pm, Sunday, Monday from 4pm, Wednesday from 4pm

Education and Training

2021 Currently in year 12 at Pulteney Grammar School, and my top subjects are Digital Technologies, Physics and Maths Methods

Maths Methods A+

Digital Technologies A

Physics A+

Specialist Maths A

Qualifications

2020

Certificate III in Information, Digital
Media and Technology

Skills and Abilities

Communication skills, which I've learnt from playing many team sports such as volleyball, basketball and cricket

Problem solving skills, which I've learned from programming where I have to design programs to solve problems of interest, such as a queue for the 3d printer at school for students to upload their 3d designs

Teamwork skills from working on major group projects throughout the Game Programming course I did at AIE, which included working together with other students in a group over the course of a semester, dividing up tasks and managing our time to

meet a common deadline

Special Achievements and Awards

2021

Academic Excellence Award (term 1 and term 2)

2020

Basketball Best Team Person Award

2020

Australian Maths Trust Competition High Distinction

2020

Merit for Digital Technologies, Physics, Maths Methods, Specialist Maths

Hobbies and Interests

I play volleyball competitively for my school, as well as basketball. I also enjoy programming video games and other applications in programming languages such as Python, C Sharp and JavaScript
